

Information for RE Teachers and Coordinators

New visual materials about Humanism are now freely available from North East Humanists. These will help you mark World Humanist Day.

The materials are in the form of four posters which summarise Humanist beliefs and one about campaigning on climate action.

They could be used as

- **displays on screens around the school**
- **the basis for an assembly**
- **printed posters displayed around the school and in classrooms**
- **a resource in lessons about Humanism**

They are also available from our website

<https://www.northeast-humanists.org.uk/education/>

Additionally, we provide advice and lead assemblies and lessons.
